Introducing HumiK Bio™

HumiK Bio combines HumiK One with **sea plant extract** and **microbes** that provide added crop health, yield, and soil health benefits.

25% Organic Matter
A combination of carbon substances, sea plant extract, 3.1×10^8 CFU/g microbial content, and moisture

HUMIC ACID

Improves soil health and structure

FULVIC ACID

Helps with transportation and absorption of nutrients

POTASSIUM

Helps with the movement of water, nutrients, and carbohydrates within plant tissue

BIOSTIMULANT AND MICROBIAL BLEND

Sea plant extract enhances the plant's ability to tolerate stressful conditions
Microbes increase nutrient availability

USE RATE

AGRONOMIC CROPS
5-10 lbs per acre
