

Humik ONE

EXTRACTED • GRANULE • TECHNOLOGY

Introducing Humik ONE™

Humik ONE is the most effective and convenient way to deliver humates to the soil. As a soil-first product, Humik ONE protects yield potential across all soils and conditions.

25% Organic Matter
A combination of carbon substances and moisture

HUMIC ACID

Improves soil health and structure

FULVIC ACID

Helps with transportation and absorption of nutrients

POTASSIUM

Helps with the movement of water, nutrients, and carbohydrates within plant tissue

Humik ONE is the **one** granule for dry delivery – the foundational product that will be co-formulated with biologicals and nutritionals to form new solutions that best meet your growers' needs.

USE RATE

AGRONOMIC CROPS
4-7 lbs per acre
